

## **CORROSION CONTROL GROUP**

Migrating Corrosion Inhibitor (MCI) Patented Technology  
Protects reinforced metal in Concrete from Corrosion,  
MCI rehabilitates Concrete and extends its life

Vapor Phase Corrosion Inhibitors (VpCI) Technologies  
for the Protection of Electronics, Enclosures, Instrumentation,  
Controls & O.E.M. applications

Cortec's Coating provides long term VpCI and barrier Corrosion  
Protections providing an outstanding UV resistance and excellent gloss  
retention which is important when esthetics is a consideration

VpCI Protects a multitude of metal products, Water based concentrates and  
ready to use metal working liquids provide economical protection for  
exterior and interior surfaces to almost any metal

A complete line of Auto bags, Zipper Closure bags, Corrugated plastic  
container, Paper & Sheeting, made from high tech resins utilizing high  
performance constructions utilizing recyclable and non-toxic materials  
All our packaging solutions offer our patented VpCI Technology

War readiness is a key factor and Cortec has the solutions that will reduce  
cost of protection with the most efficient and economical solutions,  
extending the asset life and enhancing its availability when required. Our  
patented VpCI Technologies protect all you valuable assets
